Who We Are:

We are a group of married couples in our twenties to forties, some of whom have young children and some of whom do not. Our group ranges from couples who have been married less than a year to one couple who recently celebrated their 8th year of marriage. All Catholic couples are welcome and do not have to be members of the parish.

Monthly gatherings include food and fellowship, with discussion topics relevant to young married couples of faith which are chosen by the host couple. We also participate in service projects throughout the year. Last year, we participated in *Families Moving Forward (FMF)* and the *Habitat for Humanity* projects with the parish. We look forward to new projects in the coming year, including adopting a family at Christmas and participating in *FMF* again.

Basically, "if you define yourself as a young married couple, than we do too!"

When We Meet:

The Young Married group will determine when we meet.
